

I am writing this comment in concern of the proposal to give priority to LPFM stations over FM translator stations. I listen to K-LOVE FM 91.3 radio station and very much appreciate the programming they provide. The programming is safe and wholesome for my entire family to listen to. I feel comfortable with my children listening to the station even though I may not be home or in the same room. I would be very disappointed if this station was displaced by a LPFM broadcaster providing different programming. I feel that myself along with the Idaho Falls community would not have a safe, family friendly radio station to listen to. K-LOVE is the type of station that encourages children, teenagers, and adults in a positive way by bringing them together rather than against one another! Thank-you for taking the time to consider my comments. Mike Lanier
